

Outcome Focused Workshop

Do You

- See staff displaying negative behaviours, but you're unsure how to address this?
- Want staff to be more positive or efficient, but nothing you have tried has worked?
- Have tired, annoyed, or frustrated staff, and you can feel the team splitting?
- Wish you could talk to an expert to work out how to take your team from good to great?

If you answered **YES** to any of the above, you need an **Outcome Focused Workshop**.

How is a Workshop different to a Session?

Sessions on our website are pre-designed, whereas a workshop is fully customised to overcome your identified concerns and leave attendees with clear and specific action plans.

Our Workshops are bespoke and designed to suit your team, problems, goals, and School values. Workshops allow time for conversations and include challenges to help attendees self-identify areas for improvement.

How long is a Workshop?

The depends on team size, onsite or online delivery, outcomes required, assessments included, your time frames, etc. Workshops can be anywhere from 2 hours to a full day. We will work with you to develop a Workshop that meets your time frames.

How much does a Workshop cost?

Again, this depends on the variables, but your **FREE 20-minute Workshop Meeting** with one of our highly experienced Facilitators will help determine this. After the meeting, you will receive a formal quote with an Outcome Focused Workshop proposal for your consideration.

For whom are Workshops suitable?

All Staff – Teachers, classroom-based staff and all ESS.

You can mix the attendee mix or stick to those with the same or similar roles. We will help you decide what will be the best mix for your desired outcome.

How Do I Book a **FREE Workshop Meeting**?

Email steve@justforschools.com.au or call 0457 290 825

What topics can be covered in a Workshop?

Below are a few topics we can blend into a Workshop, but there are many more, and your Facilitator will help you choose the right blend.

- **Mindset Mastery:** Delve into Neuroscience & NLP principles to discover the art of mindset mastery, learn how to challenge limiting beliefs, explore your values and how to cultivate a resilient and uplifting mindset.
- **Time Management:** Learn time management principles, prioritising tasks effectively, and develop planning and goal-setting skills.
- **Collaboration Skills:** Enhance Emotional Intelligence through developing empathy and active listening skills.
- **Conflict Resolution:** Skills to foster a culture of collaboration within teams.
- **Assertiveness:** Learn how to say no, how to set boundaries and how to disagree professionally.

Testimonials

*“The Workshop exceed our expectations!” **Multiple Attendees***

*“Lisa was great - she tailored the content and provided a good balance and a lot of food for thought with values, positivity, and prioritising.” **Business Manager***

*“Happy that Lisa was prepared to challenge our thinking and provide things to work on and do going forward, loved the values that I can refer to with staff going forward.”
Library Manager*

*“In my opinion, it’s one of the best I have attended so far!” **Office Admin***

*“Great takeaways that all of us could apply to our job & life. I love the part to ‘think above the line’ and take control of our emotions and thoughts.” **Integration Aide***

*“The prioritising and time management ‘grid’ you provided makes it easy for us all to use going forward. Thank you so much for listening to and understanding our challenges and reminding ESS of their value in the school.” **Business Manager***
