CUSTOMISED SESSION

Your Team. Your Topic. Your Timeframe.

Professional development designed around what your team need most.

Reviewed our Single Sessions and not found exactly what you were looking for? Every school has its own goals, challenges, and team dynamics, and sometimes the best professional development is built from the ground up. Our customised sessions are built with you (or your leadership team), so the content is tailored to your school's priorities.

Every team is unique. Their professional learning should be too.

We work with you to understand what your ESS need right now, then help you choose the right content and time frame. During our chat, we'll match topics to your team's needs, so the session is not only engaging but genuinely relevant. After the session, we can also provide recommendations to continue to educate, engage and empower your team.

How It Works

1

Book a Call

A free, no-obligation chat so we can understand your team and your goals for the session.

2

Confirm Content

We help you select the topics and the time frame - from 2 hours to a full day.

3

Customise and Deliver

We tailor the content to our agreed topics and time frames and deliver it onsite.

Our Requirements

Venue

With resources for a PowerPoint presentation

Refreshments

At your discretion and cost
